

March 19, 2020

To: Ignition Interlock Program Participants

From: Sergeant Terry A. Seay
Tennessee Department of Safety and Homeland Security Ignition Interlock Program

You are receiving this notification for the purposes of maintaining social distancing under the CDC guidelines and to promote the health and well-being of the citizens of Tennessee and the United States by reducing the community spread of disease, and as a follow-up to prior protocols by Governor Bill Lee's Executive Orders 14 & 15, declaring a State of Emergency in response to 2019 Novel Coronavirus (COVID-19).

As part of our continuing efforts to confront and limit the spread of COVID-19, the Tennessee Ignition Interlock Program is implementing the following protocols effective immediately:

- All required monthly services are suspended until June 15, 2020; services will then resume on the originally scheduled day of the month. Your interlock provider will let you know if you need service before this goes into effect;
- If service is required, you must provide all necessary breath samples;
- If you are unable to have the ignition interlock device removed upon compliance during this period, there shall be no monthly lease charge for the extended period.

The Ignition Interlock Program advises the following:

- We understand the importance of using hand sanitizer during this time. To reduce the chance of incurring a high BAC violation, use sanitizer outside of your vehicle and allow your hands to dry before giving a test;
- Always provide a passing retest within 10 minutes for any fails;
- Services will be provided at the discretion of the manufacturer and the service center during this period.

Sincerely,

Sergeant Terry Seay
Ignition Interlock Program
